Documentation

Agenda:

1. This document is a self service guide to onboard a new tenant (society/community) to the application https://covid.azurewebsites.net/.
2. Register admin(s) to the tenant who will regularly update the covid count in their society/community.

Outcome:

1. A dedicated tenant for your society/committee members will be created. https://covid.azurewebsites.net/<society/committeename>
2. Admin can login with https://covid.azurewebsites.net/admin.php to add cases in the tenant.

Process:

1. Visit https://covid.azurewebsites.net/onboard.php and create a tenant by entering your State, City, and Society name.

   Imp: **Match spelling of State from column C and City from column F** from https://api.covid19india.org/csv/latest/cowin_vaccine_data_districtwise.csv (this will enable the vaccination dashboard for your city!).

   Imp: **Society/Committee Name should not have spaces**.
   Eg: If your society name is Costa Rica, then enter costarica.
